1. The children around Frieda began to avoid her and leave her out of activities. When we see others ostracized or as objects of racism or prejudice, what is our responsibility as fellow citizens?
2. How can you recognize prejudice and racism and stop it from developing as a part of your school or community's culture? Use Freida's story as an example, and show how people might have made a difference for the 20 or 30 Jewish families that lived in her community.
